

EXPRESS ENROLLMENT
CT Clean Choice™ for Connecticut Customers

Yes, I am a Connecticut utility customer who wants to enroll for CT Clean Choice™, a blend of 33% wind, 33% small Connecticut hydro and 34% landfill gas. I know that by enrolling I will have a renewable energy premium of .0115 cents per kWh (about 25¢ per day for the average household) added to my monthly CL&P or UI bill, and I will remain a customer of CL&P or UI, which will continue to provide customer service and emergency response.

When I enroll for CT Clean Choice™, I begin supporting renewable resources that produce significantly less pollution than conventional electricity sources, help secure our nation's energy independence and assist my community in qualifying for a free solar system.
